

ADAM ŚWIETLICKI

FRONT END DEVELOPER

I am a user and motivated entry-level Frontend Developer, ready to start a career in the IT industry. Having a solid programming foundation from my education and my own learning. I'm looking for a first build to get hands-on experience and carry it out as a front-end specialist.

BestShop Responsive Web Design (RWD)

BestShop RWD is a website project designed for responsiveness and adaptability to various devices, including computers, tablets, and mobile phones. The project was developed as part of learning and practical experience in front-end development.

- Technologies Used:
 - HTML5, CSS3: Fundamental front-end technologies used for structuring and styling the website.
 - Media Queries: Used to adapt styles based on screen size.
 - Git/GitHub: Version control tools for managing source code.
 - Other technologies used for specific functionalities
